With a shared vision for building the capacity of those who lead, teach, and serve students in Ohio's schools and beyond, we are excited to announce a partnership between OLAC and the Ohio PBIS Network to host a joint event this year. This one-day conference will combine the best of the OLAC Action Forum and the Ohio PBIS Showcase.

## What You Can Expect

Like our past events, you can expect high quality content from experts and practitioners from around the state and across the U.S., as well as opportunities to network and collaborate—the only change will be that it will be from the comfort of your own home or office.

This year's theme, *Responsive, Reimagined, and Resilient Leadership*, will include sessions aligned around three strands:

- Leading, learning, and connecting in all learning environments
- Supporting the whole child, including trauma-informed practice and students' social emotional well-being
- Ensuring equitable learning opportunities

## HIGHLIGHTS

- 20 sessions to choose from
- Keynote speakers—Dr. Doug Reeves and Anthony Coy-Gonzalez
- Networking and collaboration opportunities with presenters
- Access to all recorded sessions and materials following the event
- Opportunity to earn contact hours

#### **Fearless Schools: Building Trust and Resilience for Learning, Teaching, and Leading**

With the fear and uncertainty surrounding the pandemic and the economic impact that follows, teachers, leaders, students, and parents need fearless schools. At the core of fearless schools is psychological safety. In this interactive keynote presentation, Dr. Reeves explains how leaders and teachers build and maintain trust and psychological safety, and how sometimes these ideals are inadvertently destroyed. Come prepared to engage in a rich discussion and reflection based on a large body of 21st century evidence. Special emphasis is paid to resilience—bouncing back from physical, emotional, and psychic injury.

This year, we have grieved losses in many forms. The loss of normal, however, was one that the field of education desperately needed. Our students today do not fit into “norms,” but need to be embraced by an inclusive education that breaks through inequities they face. Stories from the classroom, community partnerships, and beyond will help inspire and challenge us to reimagine what is possible for each unique child and the field of education. Anything is possible. Get ready to dream of how an education for all might look.
